

July 16 HVCC Meeting Canceled

Next Meeting
Monday, August 20, 3:00 pm
Yucca Mesa Community Center
3133 Balsa Ave.

The mostly undeveloped scenic corridor circled in red is at risk for massive industrial solar fields: on over 5,000 acres north of Lucerne Valley as well as on State Lands north of the Highway near Old Woman Springs Ranch and the community of Johnson Valley

Work continues on the Visual Assessment and Corridor Management research for San Bernardino County's proposal that Caltrans recognize the scenic qualities of State Route 247.

We will have a report at the August meeting of any progress made by the HVCC Scenic 247 Committee and County Land Use Services Department with guidance from the Landscape Architect Department of Caltrans.

For more information on the project visit www.scenichighway247.com

- Mission Statement • Original Presentation to the County
- The Case for Scenic 247 • Map of Terrain Visible to the Traveler
